# Clarivate™

Proposal for an EndNote central reference management solution at Széchenyi University

Accelerating your pace of research

Simple and resilient reference management to support your distributed research workforce

Focus on what matters most: your research.

Did you know that researchers waste nearly 200,000 hours per year formatting citations? Imagine if you could have that time back to spend on your research. EndNote 20 accelerates your research process so you can focus on what truly matters – conducting and sharing groundbreaking research.

Write Faster
Insert in-text citations while simultaneously creating a bibliography with the Cite While You Write feature in Microsoft® Word.

Research Better
Use tools that find PDFs for you throughout your search process. Then, easily read, review, annotate and search PDFs in your library.

Stay Organized
Create rules to automatically organize references as you work. And, use the new Tabs feature for easier multitasking.

Collaborate Easier
Easily collaborate across geographic boundaries. Share some or all of your library and set permissions for access.

Get Published
Match your paper with relevant, reputable journals using Manuscript Matcher.

Work From Anywhere
Access your research anytime, anywhere from the cloud. Move seamlessly between online and the desktop and iPad applications.

Executive summary:
# Accelerating your pace of scientific discovery

Short company summary, market differentiators, size of your organization

Inspiration can be sparked by the smallest moments and set the lifecycle of innovation into motion. Clarivate works with customers such as Széchenyi University to accelerate the pace of innovation - from discovery to protection through to commercialization. Clarivate generates a number of proprietary datasets, such as Web of Science, Cortellis, Derwent, CPA Global, CompuMark and MarkMonitor and integrates them with leading services provisions (including health services from the Decision Resources Group - DRG). The result is an unmatched set of services and solutions, supporting customers in over 60 countries worldwide.

List of specific experience your institution has in this area and that are relevant to the project and provide customer references.

EndNote has got more than 9,000 institutional and academic customers globally, Clarivate is the exclusive distributor of this services in the Hungarian region and we are counting some of the largest Hungarian universities to our customer base. With our focus being on the faculties of sociology and cultural sciences, we are happy to share references with you at a later stage how this has been implemented and being used in such faculties.

Summary of the proposed solution

EndNote Site License

Through EndNote, Széchenyi University can get the reference management software you need to help your researchers, students and scientific personnel focus on what truly matters – conducting and sharing groundbreaking research. At Széchenyi University, researchers routinely collaborate on a global scale, and the ability to work remotely is increasingly important. Manually creating, maintaining and sharing reference lists is time-consuming, particularly when managing input from colleagues worldwide. In fact, researchers waste nearly 200,000 hours per year formatting citations.

To solve this challenge, EndNote 20 helps researchers at Széchenyi University save time, stay organized, collaborate with colleagues and get published. With tools that automate bibliography creation, help with large-scale literature reviews, simplify finding and editing PDFs and allow sharing, researchers can focus on what matters most: their ideas.

In this proposal, you will learn more about the key features of an EndNote site license at Széchenyi University, including:

Collaboration

EndNote 20 offers flexible solutions for sharing that help everyone stay on the same page. Up to 100 people can work across faculties, internal and external boundaries from a single reference library, no matter where they are located or what institution they are affiliated with. Users can give read and write or read-only access to all or only a portion of their library.

Subscription journal content in one click

Researchers can initiate a search for full-text PDFs across all your institution's subscriptions and freely available sources. When the article is found, it is automatically attached to the related reference. Then, users can read and annotate PDFs that open full size.

Seamless organization

Researchers can easily stay organized with a reliable system that stores unlimited references and provides powerful tools to help organize and manage references with ease and speed.

7,000+ reference styles

Researchers can automatically build their bibliography with EndNote's Cite While You Write tool in Microsoft Word, with access to a library of more than 7,000 styles – more than any other reference tool – or they can customize their own style.

Instructor led training with local language capabilities

An implementation of a new software solution like EndNote can take up time and in-house resources, that's why support institutions with our technical experts like Enikő Tóth Szász, that can assist on specific local requirements and consult in Hungarian for your convenience.

Competitive Advantage

In the following, we are happy to outline the competitive advantages of EndNote:

EndNote vs. Mendeley:

- EndNote can create category and subject bibliographies in addition to standard reference lists

- Multiple reference lists in a single document for chapter bibliographies or document sections

- EndNote linked to WoS:

- Easy to view a source code

- Find related records

- Create citation report

- Intuitive and seamless EndNote export option in Google Scholar

- Find journal submission recommendations using the integrated Manuscript Matcher feature

- EndNote 24/5 support team, implementation support and technical support complimentary

- Continuous reinvestment into product development to take customer's needs into account and stay ahead of the curve → annually product upgrades, quarterly updates

- An easy and remote activation of the licenses and installation package download without using any inhouse IT-resources

- EndNote is saved locally saved on hard drives and allows collaboration through the browser extension, EndNote Online account rather than being saved on the cloud which leads to corruption over time and is being experienced by our competitors

- Confidentiality through now usage, user data tracking, local hard drive storing and no open-source model

EndNote vs. Zotero:

- Quickly find a captured reference by using the integrated library search feature

- Identify references to review with the EndNote's Read/Unread statuses

- PDF annotations, sticky notes with the EndNote PDF viewer

- Output style editor to easy design custom formatting guidelines for writing projects

- EndNote 24/5 support team, implementation support and technical support complimentary

- EndNote is saved locally saved on hard drives and allows collaboration through the browser extension, EndNote Online account rather than being saved on the cloud which leads to corruption over time and is being experienced by our competitors

- Confidentiality through now usage, user data tracking, local hard drive storing and no open-source model

- Continuous reinvestment into product development to take customer's needs into account and stay ahead of the curve → annually product upgrades, quarterly updates

EndNote vs. RefWorks:

- EndNote Sync (available in EndNote desktop) to synchronize the library of references between multiple devices

- EndNote Library Sharing to share the library with up to 100 colleagues via EndNote desktop

- Automatic PDF import with a designated hard drive folder

- Output style editor to easy design custom formatting guidelines for writing projects

- EndNote desktop can substitute abbreviated journal names in place of full journal names and vice versa

- EndNote 24/5 support team, implementation support and technical support complimentary

- EndNote is saved locally saved on hard drives and allows collaboration through the browser extension, EndNote Online account rather than being saved on the cloud which leads to corruption over time and is being experienced by our competitors

- Confidentiality through now usage, user data tracking, local hard drive storing and no open-source model

- Continuous reinvestment into product development to take customer's needs into account and stay ahead of the curve → annually product upgrades, quarterly updates
