# EndNote 20

The same power and flexibility you trust, modernized for ease of use

**New interface  
design**

**Improved PDF  
reading**

**New workflow  
enhancements**

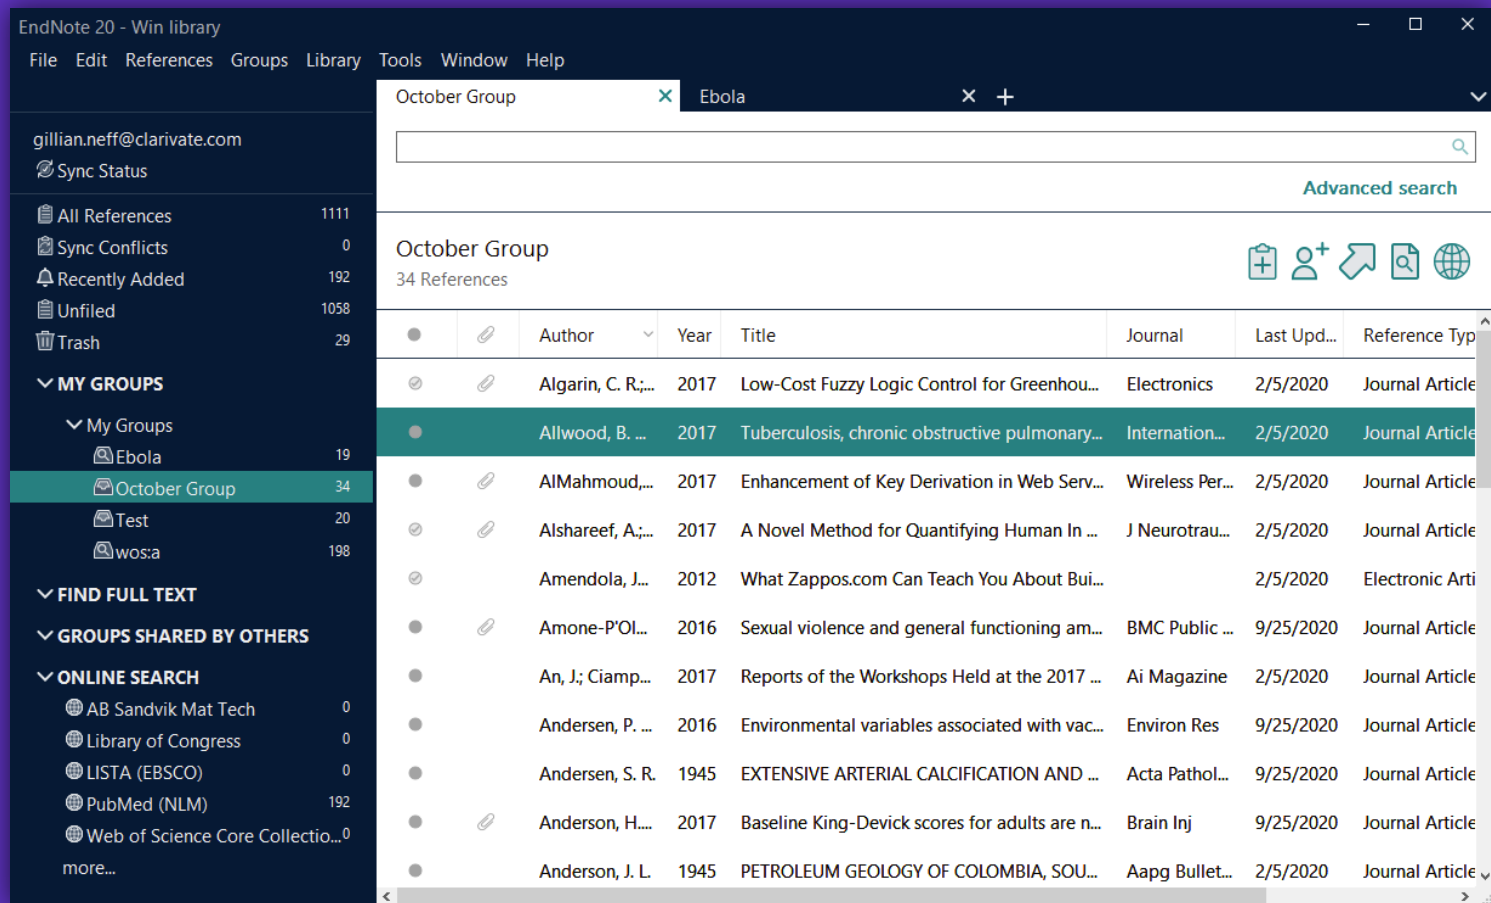

**Improved way to  
detect duplicates**

- Begin projects more quickly by spending less time onboarding new users
- Save even more time conducting large scale literature reviews

# EndNote 20

The same power and flexibility you trust, modernized for ease of use

## New interface design

Save even more time preparing manuscripts and managing your bibliographies with a more intuitive user interface preferred by 95% of customer testers.

# Improved PDF reading

Read and annotate more easily with PDFs that open full size, and an intuitive toolbar that frees up your mind to think about the ideas in the paper instead of how to add your notes.

# Improved reference editing

The screenshot displays the EndNote 20 - Win library interface. On the left, a sidebar shows the user's email (gillian.neff@clarivate.c...), sync status, and a list of reference groups: All References (1111), Recently Added (192), Unfiled (1058), and Trash (29). Below these are 'MY GROUPS' (My Groups, Ebola, October Gr..., Test, wos:a), 'FIND FULL TEXT', 'GROUPS SHARED ...', and 'ONLINE SEARCH' (AB Sandvik Mat ..0, Library of Congr..0, LISTA (EBSCO) 0).

The main window is titled 'All References' and shows a list of 1,111 references. The table has columns for Author, Year, Title, and Journal. The selected reference is by Abbaszade... (2016) titled 'Time-depende...' in 'J Investig Clin Dent'. The right pane shows the 'Summary' view of this reference, including the title, authors (A. Abbaszadegan, S. Sahebi, A. Gholami, A. Delroba, A. Kiani, A. Iraj, et al.), journal information (J Investig Clin Dent 2016 Vol. 7 Issue 1 Pages 93-101), accession number (25187255), DOI (10.1111/jicd.12123), and a link to the PubMed entry. The summary also includes the abstract text: 'AIM: In the present in vitro study, we investigated the time-related antimicrobial efficacy of Aloe vera and Zataria multiflora (Z. multiflora) plant essential oils compared to calcium hydroxide ([Ca(OH)2] ) to eliminate Enterococcus faecalis (E. faecalis) from root canals. METHODS: A new strain of E. faecalis (Enterococcus spp. AGH04) was isolated from a previously root-filled tooth with persistent apical periodontitis. The 16S rRNA sequence was analyzed and deposited in GeneBank under...'. At the bottom, there are buttons for 'Annotated' and 'Copy citation'.
