(7) After the votes cast for each list of candidates have been counted, the polling station commission, in accordance with the procedure set by the Central Election Commission, shall promptly announce the number of votes cast for each list of candidates.

Article 34

(1) After the completion of the preliminary vote counting, the polling station commission shall sign the first part of the vote counting minutes, and before a break is announced, it shall package together:

The Central Election Commission shall examine the complaint and take a decision within three days.

(2) The decision of the Central Election Commission concerning the contested vote-counting minutes of the polling station may be appealed in court within three days after its adoption.

The district (major city) election commissions shall accept and tally, according to the vote-counting minutes, all the vote-counting results of the polling stations located in their administrative area and shall send election materials, together with their own vote-counting minutes, to the Central Election Commission in accordance with the procedure set by the Commission.

Article 38

(1) The Central Election Commission shall determine which candidates have been elected in each constituency. Lists of candidates with the same name that have received less than five per cent of the total number of votes cast in all constituencies, regardless of the number of constituencies where these lists of candidates have been submitted, shall be excluded from the allocation of seats. The number of valid ballot envelopes shall be regarded as the total number of votes cast (the total number of voters taking part in the election).

(2) The procedure to be applied in allocating the seats in the Saeima among the winning lists of candidates shall be the following:

- 1) the valid ballot papers cast for each list of candidates in each constituency shall be counted;
- 2) the number of ballot papers cast for each list of candidates shall be divided by odd numbers — 1, 3, 5, 7 and so forth — until the number of the divisions equals the number of candidates nominated on the list;
- 3) all the division results concerning all the lists of candidates in a constituency shall be numbered in descending order;
- 4) within a constituency the lists of candidates that have the highest division results shall win seats. If the division result, the order number of which is equal to the number of seats assigned to the constituency, coincides with one or several consecutive division results, the list of candidates that has received the largest number of votes in all constituencies wins one more seat. If lists of candidates have been registered in only one constituency, the seat is won by the list of candidates which was registered first.

Article 39

The names of the candidates nominated on each list shall be ranked according to the number of votes they have received. The number of votes cast for each candidate shall be equal to the number of votes cast for the list in which his/her name has been included, minus the number of ballot papers on which the name or surname of this candidate has been crossed out plus the number of all the ballot papers on which the voters have made a "+" mark opposite the candidate's surname. If two or more candidates on the same list have received an equal number of votes, they shall be ranked in the same order as on the originally submitted list. The candidates who have received the largest number of votes shall be regarded as elected, whereas the others shall remain as candidates, and their names shall be ranked in the order of the largest number of votes received.

Article 40

If, according to Article 38 of this Law, the same candidate has been elected in more than one constituency, the candidate shall be regarded as elected from the constituency where he/she has received the largest number of votes; in the other constituencies, the candidate with the next largest number of votes on the same list shall be regarded as elected.

Article 41

If an elected Saeima member has died, given up his/her mandate, or declined it for some other reason, he/she shall be replaced by the candidate ranked next on the same list of candidates.

Article 42

If for any reason specified in Article 41 of this Law a list is short of candidates, then the list of candidates which will win a seat in the Saeima shall be determined according to the procedure set by Article 38 of this Law.

(3) When the polling station commission has opened the ballot box and has grouped the valid ballot envelopes, then before opening them, it shall add to them the ballot envelopes received by mail.

Article 48
