

Design of structures 2. Project task

Write an essay and do a presentation about a building taking the following into account:

- Presentation of the chosen building (function, technology) – mainly in structural point of view
- Choice of material (Is it good or not? Why did they chose that? Is there any alternative solution?)
- Dimensions of the structure
- Description of the load-bearing system

Requirements

Min. 8 pages, with pictures, Font: max. 12 pt, linespacing: max. 1.5

Please use minimum 5 references!

Deadline: 13. 12. 2019. (via e-mail to karolyfi.kitti@sze.hu)
